“Techniques were simple, easy to remember. I feel more empowered and confident and we had a great productive day!” Pamela Towers, Primary school teacher

“You made what could have been a very boring subject, enjoyable and fun. Many staff commented on how it also worked as a good team building exercise which was good for morale, especially being the first day back after Christmas! You delivered a 'flawless' session and it tripped off the tongue in a well presented and humorous manner. Your subject knowledge is outstanding. We look forward to inviting you back into school to deliver further training in the future and thank you once again for such a fantastic session on Friday”. S Inman, Lea Community Primary School, Preston
